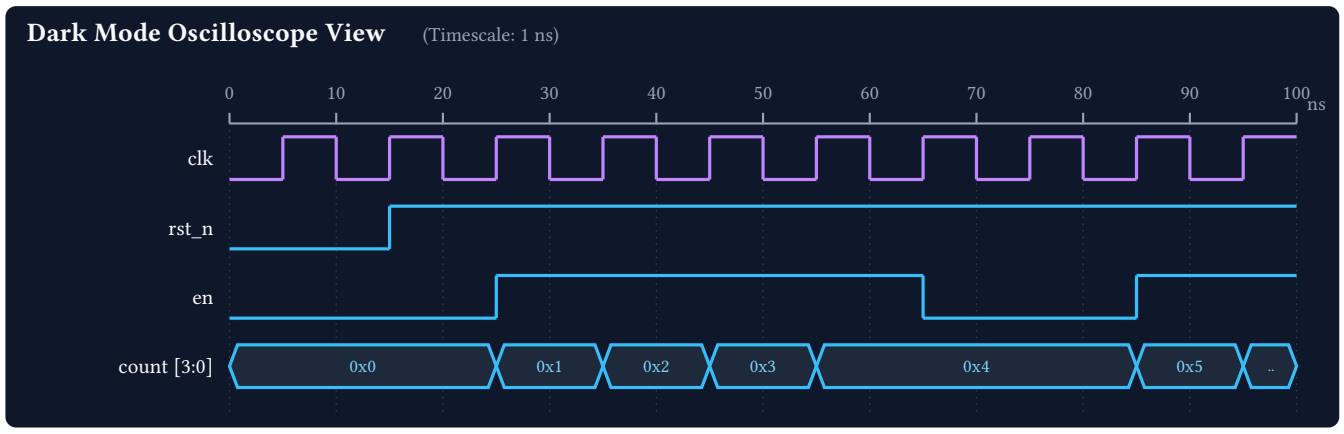
Custom Styling Showcase

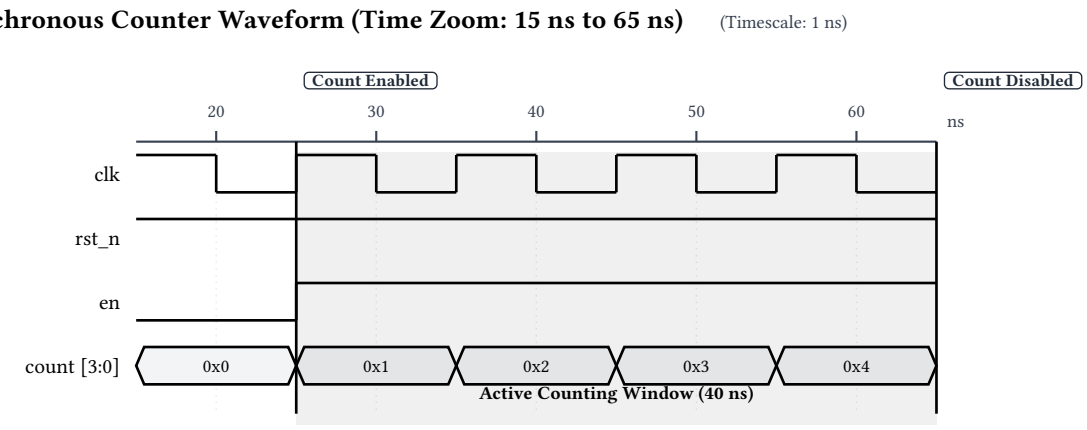
`signel` supports complete styling flexibility, including pre-built themes, custom palettes, time slicing, and signal-level customizations.

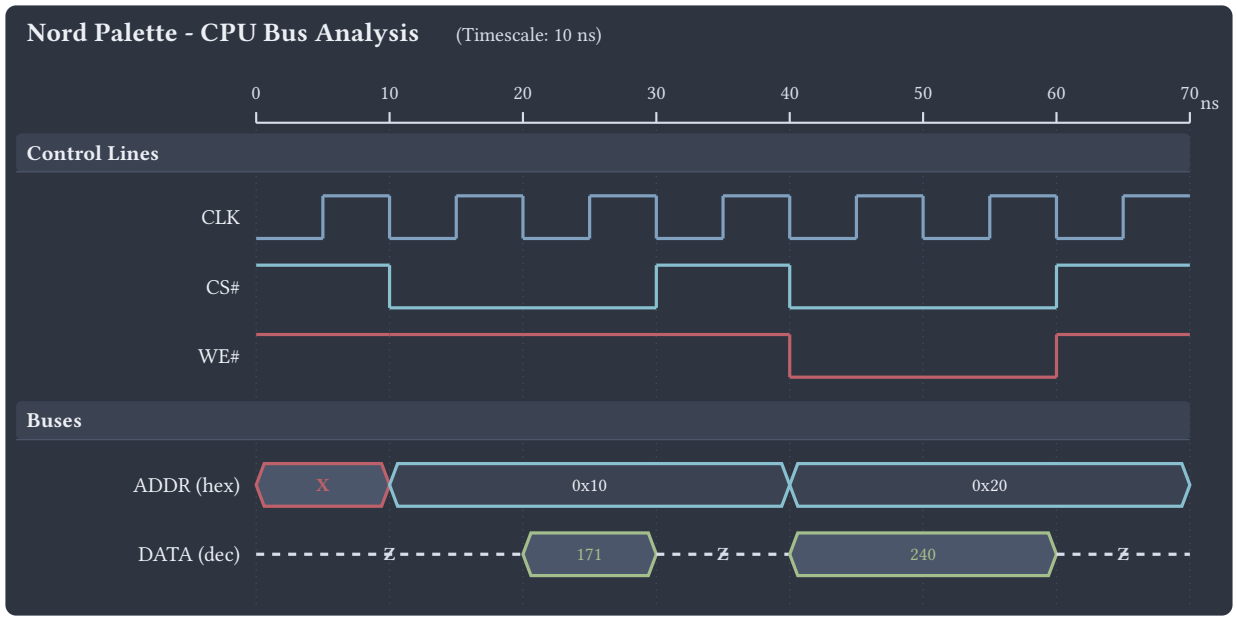
1. Dark EDA Theme (`themes.dark`)



2. Academic / Publication Theme (`themes.academic`) with Time Slicing

Optimized for academic publications (IEEE transactions, ACM, thesis) with monochrome print-ready lines and time-range zoom [15, 65].



3. Nord Theme (`themes.nord`) with Custom Signal Formats


Nord theme displaying the CPU memory bus, formatting the data bus in decimal (`format: "dec"`), custom divider sections, and custom label colors.
